

Just add water. We'll do the rest.™

Vibrant Sea™

Replicates Natural Marine & Reef Waters

Vibrant Sea™ is a blend of salts formulated for marine and reef aquariums that contains all essential major, minor, and trace components found in natural seawaters, plus the added advantage of enhanced potassium levels. Its formulation is ideal for the reef environment and will provide accurate seawater concentrations of magnesium, calcium, and strontium with proper alkalinity and pH for closed reef aquarium systems. Vibrant Sea™ is an anhydrous salt, which allows for unparalleled uniformity from batch to batch as well as the ability to produce more saltwater from less salt.

- ✔ Highly concentrated
- ✔ Enhanced Potassium Formula
- ✔ Superior calcium and alkalinity stability
- ✔ Fast dissolving
